

## DRONE GUARDING

---

**GKS Kernel** undertakes Drone (unmanned aerial vehicle) Guarding & Security of premises for the surveillance of private property. Our operationally qualified staff using Drone may provide:

- The best possible coverage in difficult or inaccessible areas.
- The best possible coverage in low-light conditions, where the Drone successfully detects any intruders using infrared rays.
- Rapid response from the moment an intruder is detected. Safe approach & motion capture without human involvement.
- Supplementary or total outdoor security in cooperation with security guards.
